Dynagraph demonstrates automation, integration and networking at the Gulf Print 2005 exhibition in Dubai

One Vision, Tera Digital Publishing, Novavision, OKS Software AG and MAN Roland Druckmaschinen AG took part in the Gulf print exhibition to stress the need for the Graphic Arts Industry in the Middle East to understand the underlying principles and dynamics behind their solutions

During the seventh Gulf Print exhibition that took place in Dubai between the 11th and 14th of December 2005 Dynagraph demonstrated how the print process can be automated, integrated and networked through open standards, and end to end software solutions

For Dynagraph the Gulf Print event was mainly intended to show its customers existing workflow solutions, ERPs, editorial, pagination, pre-flight checking and correction, archiving and content management solutions that do not offer any compromise when it comes to quality control and efficiency. Dynagraph's stand was unique in its constellation since it sought to help customers realise that major gains in productivity can be generated not only through capital investments in industrial machinery but through automated, integrated and networkable software solutions.

Today, One Vision, Opas-G, Tera, Printvis and Printnet count among the best of breed end-to-end solutions available on the market.

One Vision is part of the solutions offered to help secure the production, control the workflow, automate, standardize and clean files independently from any input format and operating system. It simplifies the publishing workflow by ensuring its control, its correction and the optimization of incoming customer data.

Tera Digital's GN3 system is exclusively intended for newspapers and publishers. It allows the user to configure and setup the system in order to view and edit stories, pictures, wire texts, multimedia items and web sites. It also enables to create, edit and print page layouts, and work on the aligning of articles in pages following a defined completion and deadline.

OPAS-G is an open content and media logistics system developed by OKS Software. Its core market targets are any enterprise or institution seeking to

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry Ilc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, pre-press, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed MAN Roland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
