Al Thawra – first newspaper printer in Yemen invests in a Multi-color offset printing press from MAN Roland

In March 2007, Dynagraph engineers completed the installation of an R704 LV at Al Thawra in Sana'a, Yemen. The government-owned newspaper, founded in 1962 will now be able to meet its commercial printing requirements.

Where there is no compromise on print quality MAN Roland is always short listed and proves to be the front runner in technology and when it comes to shorter make ready times.

Did you actually know that developments such as automated plate change with PPL and APL, the Transferer Technology, the Delta Effect, the Single-drum Sheet Turning System or the Airglide Delivery are closely linked with the MAN Roland R700? Now QuickChange options for automated air settings, simple coating form clamping, automated front lay adjustments, inking unit optimization, automated job changeover and fast wash-ups increase the R700's productivity by up to 30%.

Today MAN Roland adds significant value to printing by adding even more worksteps in the process and reduce cost, while increasing productivity for a wide range of applications.

Here the ROLAND 700 with its inline modules like the InlineFoiler or the InlineSorter is the market leader. Not to forget the numerous possibilities offered by inline enhancement with one or two coating modules plus perfecting and even with a flexo printing unit upstream of the offset printing units and sheet turning station –e.g. the ROLAND 700 Ultima.

We therefore wish to congratulate Al Thawra Establishment on its decision and welcome it to the MAN Roland Sheetfed family. This purchase makes Al Thawra Establishment for Printing and Publishing the first newspaper in Yemen to operate a MAN Roland R700.

For more information about MAN Roland Druckmaschinen AG and its product range kindly contact your local Dynagraph partner

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry Ilc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, pre-press, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed MAN Roland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
