National Printing Press transition to eco-friendly printing

Mr. Basheer Mahmoud, Managing Director of National Printing Press, a company of the JMBR Group, established the one-stop-shop in Dubai in 1963. Today it serves the security printing industry, the commercial and digital printing sectors. National Printing Press counts an important number of banks in the UAE and the Middle East as its clientele. Constantly innovating new products, services and solutions, National Printing Press invested six months ago in an HP Designjet L25500, 60 inch.

Despite the quickness of the machine, with a speed of up to 22.8 m2 per hour, the HP Designjet L25500 delivers an impressive and superb print quality for its indoor and outdoor applications.

In fact the HP L25500 Latex Inks offer application versatility, including frontlit and backlit displays, vehicle graphics, banners, wall coverings and uncoated graphics. The resulting prints are durable, with a life expectancy of up to three years for unlaminated outdoor prints and up to five years for laminated outdoor prints.

But Latex Inks offer much more, being water-based inks the prints do not smell, there is no wait time to let the print out-gas before lamination, the prints are totally dry and ready for finishing out of the printer, which makes it easy to have a fast turnaround time. Enjoy no smell in your press, no offgassing smell for your customers, a safe printing for your employees and a reduced environmental impact.

For more information on HP and its product range please contact your local Dynagraph partner.

The HP L25500, 60 inch installed at National Printing Press, Dubai

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry llc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, pre-press, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, FERAG, Perfecta and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

Ferag develops and manufactures Postprint components and systems for the newspaper printing industry, offering printers a modular concept.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
