Central Press invests in a 2nd Fujifilm Violet Photopolymer Ctp

Central Press a Jordan based Book and Commercial Printer since 1979 invests in its second V8 MAL Ctp a new generation of PRO-V ready Ctps after its initial purchase three years ago of a V9600 Ctp from FFEI

The fully automatic Luxel V-8 MAL is ideal for B1 (8 page) customer that demand unattended operation combined with high quality and reliability. With a five cassette autoloader, the Luxel V-8 is capable of holding 300 plates. Different sizes of plates can be loaded in each cassette and intelligent software keeps track of what plate is needed for which job, automatically loading the correct cassette.

Optimised for Fujifilm Brillia LP-NV Violet plates, the Luxel V-8 also boasts RIP and workflow options that can be customized to meet your needs. If image quality is of the utmost importance, the High Definition (HD) option improves tonal range and smoothness.

Additional key benefits of the Luxel V-8 MAL are that it can handle up to 43 B1 (8 page) plates per hour at 1200 dpi, and up to 32 B1 (8page) plates per hour at 2400 dpi.

It is upgradable from manual, semi-automatic or SAL configurations, has an extra large imaging area, industry standard or custom punch options, an auto interleaf removal, a reliable violet diode laser exposure, as well as a high resolution output up to 3657 dpi.

That new generation of V8 series is compatible with the Brillia PRO-V Violet chemical free LP-NV plates.

For more information about Fujifilm and its product range kindly contact your local Dynagraph partner

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry Ilc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, pre-press, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed MAN Roland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
