

Al Nahdi invests in an L25500 in Doha, Qatar

For Al Nahdi the HP Designjet L25500 enables printing on a wide range of media for indoor and outdoor applications, achieving high quality at a consistent performance. Thanks to its automatic maintenance and unattended printing the L25500 is easy to use, even the Designjet Printheads are user-replaceable eliminating the downtime and expense of a service call.

With its water-based HP Latex inks cured inside the L25500, prints come out of the printer ready to be displayed or to be used for further lamination. Additionally HP Latex Inks are odorless, which comes even more handy when placement in POP environments where odor is a concern. Water-based HP Latex Inks are also non-flammable and non-combustible, and so do not require hazard warning labels and contain no hazardous air pollutants (HAPs), reducing the impact of printing on the environment.

The HP Designjet L26500 is the latest HP wide format latex inkjet printer providing higher speeds with improved water-based latex inks for more vibrant colors. The same will be on display during the Signs & Graphics 2012, on Dynagraph's stand F13 in Hall 2, taking place from the 31st of January till the 2nd of February 2012 at the Dubai World Trade Center.

For your personal invitation, easy access to the exhibition, for your visa and more personal care please advise us on your planned visit by sending us an e-mail at delkara@dynagraph.net.

For more information on HP and its product range please contact your local Dynagraph partner.

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry llc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, prepress, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, FERAG, Perfecta and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

Ferag develops and manufactures Postprint components and systems for the newspaper printing industry, offering printers a modular concept.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
