Al Arz Printing Press in Beirut, Lebanon goes HiPrint with the purchase of an R704 P HiPrint

In June 2009, Dynagraph commissioned a four color perfecting, HiPrint R704 P to Al Arz Printing Press in Beirut, Lebanon.

Established in 1960, the commercial printer invested in a R704 P HiPrint to renew its aged R704 and improve its productivity.

Mr. Semaan and Mr. Walid Khoury based their choice on years of experience with manroland and Dynagraph in after sales service.

The R700 HiPrint has many characteristics to lead a press to its success, which we all know by now, from the flexible configuration possibilities, to the perfect ink distribution, passing by the flat sheet travel, the smooth and gentle delivery and the high substrate versatility, without missing the quick and easy make ready time, a decisive factor for the printing press in question.

When asked to evaluate their recent investment, Al Arz are very pleased with the result and only added "A+" to describe their satisfaction.

Mr. Walid Khoury also confirmed having ultimately invested in a reliable after sales service offered by Dynagraph a "most professional" distributor.
