

## Compressible Adapters Optimized for the DuPont Cyrel Round Workflow

DuPont Packaging Graphics (DuPont) has announced a global agreement to market a series of print adapters and adapters for CDI imaging manufactured by Inometa, as part of the [DuPont™ Cyrel® round flexographic printing workflow](#).

The Inometa compressible adapters are specially designed to optimize the performance of both Cyrel® round Thin sleeves and Cyrel® FAST round Thin sleeves, and provide excellent register accuracy, low dot gain and outstanding print quality from run to run. Made of precision fiberglass, they are engineered to be sturdy and smooth running with minimal run-out; ideal for today's high-performance, high-speed presses. The adapters have a rubber stop and bayonet locking system for superior handling and long life, and are available in all standard sizes.

"This multi-year agreement confirms that Inometa and DuPont are jointly committed to accelerating the introduction of the quality and productivity of in-the-round flexographic printing into the marketplace, meeting the growing demand in all regions," said Matthias Heinzl, global business director -- DuPont Packaging Graphics.

"We are very excited to partner with DuPont, one of the innovative leaders of the flexo industry," said Dr. Ulrich von Hülsen, general manager of Inometa. "Our adapters are ideally suited for in-the-round applications because of our deep knowledge of composite technology combined with our expertise in flexographic engineering."

The Inometa adapters will be featured in the DuPont booths at upcoming trade fairs, including ProFlex, Sept. 20-21, in Stuttgart, and LabelExpo, from Sept. 28- Oct. 1, in Brussels.

With a history of 30 years of innovation in light weight design, Inometa ([www.inometa.de](http://www.inometa.de)) has established its core competence in the development and manufacturing of aluminium, carbonfibre, and composite rotationally symmetrical products. As one of the printing industry's leaders in this field, Inometa uses its deep knowledge of Flexography to offer quality solutions to meet today's very diverse printing process requirements. With the two manufacturing facilities, one in Appleton, Wis., and the other in Warburg, Germany, Inometa offers a product spectrum that includes all the rotating elements in flexographic printing.

DuPont Packaging Graphics is a leading supplier of flexographic printing systems in digital and conventional formats, including Cyrel® brand

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry llc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, pre-press, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider\_Senator, Theisen & Bonitz, FERAG, Perfecta and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

Ferag develops and manufactures Postprint components and systems for the newspaper printing industry, offering printers a modular concept.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
