

Abu Dhabi based Zone Group invests in an HP L25500 printer

Zone Group was founded in 2006 and delivers high quality services in the areas of medias & advertisements, interior design, exhibitions and conferences as well as films & TV productions.

The HP L25500, 60 inch helps Zone Group meet its vision to provide a one Stop shop for high quality prints for indoor and outdoor applications. The L25500 prints on a wide range of flexible media including coated media or polyester fabric and low-cost papers, and at an image quality of up to 1200 dpi, the HP L25500 creates eye-catching graphics, with durability comparable to eco-solvent inks. With its unattended printing thanks to the HP Thermal Inkjet technology and automatic maintenance, productivity is even increased with the applications being cured in the printer, no external drying process is required and prints can be laminated immediately or be displayed directly after coming off the printer.

The high quality and consistency are achieved through its Optical Media Advance Sensor, which controls the media during printing and so minimizes banding at high speeds. Additionally its Optical Drop Detector, which tests the drop ejection performance of every printhead nozzle periodically and automatically, provides a print free of defects or errors.

The HP Designjet L25500 printer is easy to use and to maintain thanks to its fully-automatic printhead testing and maintenance systems. It reduces the impact of printing on the environment, but also for the print operators and customers. The HP Latex Inks are odorless, contain no Hazardous Air Pollutants (HAPs), are non-flammable and non-combustible, and do not require external dryers for productive operation, keeping the energy costs down.

For more information on HP and its product range please contact your local Dynagraph partner.

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry llc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, prepress, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, FERAG, Perfecta and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

Ferag develops and manufactures Postprint components and systems for the newspaper printing industry, offering printers a modular concept.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
