

An HP L25500 sold to Al Duaij in Kuwait

April 2011 the start of an environmentally conscious era for Al Duaij in Kuwait, following the installation of the HP L25500, 60 inch, by Dynagraph service engineers.

Al Duaij is part of the Adel Alduaij General Trading & Contracting, ADECO group established by the Kuwaiti Entrepreneur Eng. Adel Alduaij in 1993 for the supply and installation of all types of interior decoration materials. Having accomplished a number of key projects in Kuwait and the GCC area, such as hotels, Al Duaij gives life to life with an imprint in colors.

The HP Designjet L25500 Printer with HP Latex Inks produces odorless prints that emit extremely low levels of volatile organic compounds (VOCs). Water-based HP Latex Inks create an improved printing environment because they do not require special handling, contain no materials requiring hazard warning labels, and are non-flammable and non-combustible.

HP Latex Inks are cured within the HP Designjet L25500 Printer using radiant heat and airflow. There is no interruption in workflow by waiting for prints to dry, and additional floor space and production steps are not required for an external print dryer or for air-drying prints. Prints can be laminated immediately using cold, hot, or liquid processes.

Using HP Latex Inks and HP Thermal Inkjet printing technologies, the HP Designjet L25500 printer provides the best printing experience to produce durable, high-quality prints for outdoor and indoor display graphics. HP Latex Inks provide high application versatility by printing on a wide range of media including vinyl, low-cost and uncoated media including those compatible with eco-solvent inks, and on papers and textiles.

For more information on HP and its product range please contact your local Dynagraph partner.

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry llc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, prepress, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider_Senator, Theisen & Bonitz, FERAG, Perfecta and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

Ferag develops and manufactures Postprint components and systems for the newspaper printing industry, offering printers a modular concept.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,
