

## **Dynagraph is the appointed exclusive distributor of Westland rollers in the region and non-exclusive distributor of Westland for Heidelberg & KBA in the United Arab Emirates**

**Although a cooperation is already in place with Westland since two years now the recent appointment is a commitment of Westland to Dynagraph, after all the later is already Westland's sole partner in the rest of the Middle East.**

Westland is a leader in the rubberizing of rollers for the graphic arts industry. Westland supplies leading manufacturers of sheetfed, commercial and newspaper web presses, such as manroland, who also fits its brand new presses with Westland rollers; those rollers are now available close to you at Dynagraphs' premises in Dubai, for the regions' high investments to be supported by high quality rollers.

With a stock of graphic rollers and accessories at hand for all type of printing machines, Dynagraph offers a concept of 25% saving, by an exchanging program of old rollers with new Westland original quality rollers. Additionally, Dynagraph well trained technicians support its customers to evaluate the rollers, assisting them to achieve an utmost productivity and reliable printing with their Westland rollers.

The Westland graphic rollers have proven to reach perfect inking results, provide optimal functionality, stable processes and excellent chemical resistance.

Equipped with precise shore hardness and precise rollers diameters, Westland rollers differentiate themselves with the right quality of rubber compounds, ensuring a correct and uniform film thickness on the plate surface and consequently achieving high print quality. The long-lasting rollers offer lower frequency of re-rubberizing, less downtime of the press and consistency in print quality.
