## **Dynagraph appointed distributor of BiesSse Tape Solutions S.p.A. for Lebanon and the United Arab Emirates**

The Italian manufacturer of special adhesive tapes with more than 25 years experience, BiesSse Tape Solutions S.p.A. chose Dynagraph as its reseller for Lebanon and the United Arab Emirates.

Quality is one of BiesSse basis, continuously carrying out accurate lab tests on all products by means of their sophisticated, and constantly updated analysis machinery from the most renowned brands. As well, the production is not left to chance since BiesSse relies only on most advanced manufacturing technologies available on the market and continuously invests to improve the performance of its products and develop new ones, simultaneously caring for the environment.

Reflecting quality and reliability, BiesSse offers over 250 products in the following categories:

- **Flexo printing products:** Its range comprises a multifarious series of differently built tapes, such as:
  - Compressible foam tapes available in different thicknesses and densities.
  - Filmic tapes having corrugated liners, available in several thicknesses as well.
  - Soft vynil and cloth tapes for plates mounting.
- **Double Sided Tapes for industrial applications:**

BiesSse high performance, whereat high quality standards are needed, consists of a range of tapes made up of several carriers such as PET, PP, PVC, WNW, etc and of acrylic adhesives whose outstanding feature is the stability to high temperatures.

- **Compressible foam tapes** are available with different thicknesses, densities, colours and liners having high performance acrylic adhesives.

Dynagraph traces its roots back to the 1970s. Dynagraph is at the cutting edge of transfer of printing technology.

Dynagraph for Printing Industry Ilc, Dubai serves as a regional hub, operating from the commercial capital of the United Arab Emirates to coordinate all activity in the Gulf.

Dynagraph for Printing Industry Sal (Offshore) and Dynagraph Lebanon sal cover the near eastern markets.

Dynagraph is a small to medium size business with 90 employees.

Dynagraph aims for a balanced product mix between supplies, prepress, press, after press, converting, consumables and services

In prepress with both standard and bespoke hard and software solutions from DTP to high-end systems Dynagraph deals with manufacturers such as Fuji Film Graphic Arts or DuPont.

In press, sheet and webfed manroland is Dynagraph's partner provides a wide range of highly developed presses and services, whether in commercial, packaging or publishing printing.

In after press, our partners in this sector are leading manufacturers like Kolbus, MBO, Schneider\_Senator, Theisen & Bonitz, and others.

Kolbus offers the most extensive machine range in the industry. Hardcover as well as adhesive bound products such as catalogues, magazines, schoolbooks, paperbacks, and a variety of other products.

For special types of projects for the packaging and converting industry, Dynagraph works together with world leading manufacturers and foremost suppliers of products for solid board, corrugated board and flexible packaging industries e.g. Mark Andy, Winkler+Dünnebier,

**[dynagraph.net](http://dynagraph.net)**

- **Tapes for paper mills** comprises a series of woven non-woven double sided tapes, different in adhesion levels, thicknesses and adhesives. The double sided tapes for paper mills are produced so as to meet the various requirements of the paper industry, processing many kinds of paper carriers that want splicing.
- **Mono-coated silicone tapes** having filmic carriers of various kinds are meant for an extremely wide range of applications such as printed circuits, galvanic baths, the production of siliconised films and papers and more, performing high adhesive properties, especially under heavy operating conditions (high loads, high temperatures, degrading agents...)
- **Bags sealing tapes** consists of a series of filmic double sided tapes, different in the adhesion level as being meant for bags made of different materials. Besides, depending on how firmly the bags need to be closed (e.g. open/re-seal, security, one-way, etc.) the products to be used for vary to a great extent.
- **General Purpose Tapes** combine various carriers, adhesives and liners to face the different requirements that many sorts of operators are to cope on a daily basis.
