## **Manugraph India Ltd. to acquire Dauphin Graphic Machines Inc. for \$ 19.2 Million**

The combined entities will form the world's largest single width press manufacturing company.

**On the 7th of November 2006 Manugraph India Ltd. India's largest manufacturer of web offset printing machines announced that it is acquiring Dauphin Graphic Machines (DGM), a leading manufacturer of web offset Printing Machines based in Pennsylvania, U.S. for \$19.2 Million. The manufacturing and assembling operations will be held in three facilities: two in India and one in the U.S.**

Mr. Sanat Shah, Chairman of Manugraph India Ltd. Said, "we are extremely exited about this proposition and upon completion of this acquisition, we will not only be the pioneers in the web offset press business in India, but will also become the largest manufacturers of single width press in the world. We are already offering our services globally and are looking forward to further expand business reach."

For the CEO of DGM, Mr. Chris Lunt "In today's highly competitive global press business, the need to form worldwide alliances is a must. We clearly saw the merits of a common umbrella from day one, as each company's strength perfectly compliments the others."

DGM has become a global single width force in the newspaper and commercial printing industries. Its modern and efficient manufacturing space houses a complete parts and service organization, as well as state of the art software and design equipment. DGM is a profit making company with an annual turnover of around \$70 Million. It estimates their U.S./Canadian market share of the single-wide, one-around press market to be of roughly 60%.
