## Get your print jobs celebrated at the 8<sup>th</sup> Grand Prix Cyrel®

The Grand Prix Cyrel®, initiated in 1982, is recognized by the industry as one of the most important and prestigious competitions in flexographic package printing. In 2006, the records attained breaking 1700 submissions of trade shops, plate makers, printers, converters, retailers and packaging buyers, from 40 countries of all over the world.

The Grand Prix Cyrel® is a powerful engine to promote the growth of flexography within the printing packaging industry. The continuous success and the growing importance of the competition reflects the great progress made during the last few years, due to pioneering work by DuPont on digital imaging workflow, thermal mass transfer and round technology, which definitively revolutionized packaging printing. The next Grand Prix Cyrel® will show the future development of flexography and once again will bring valuable knowledge for top quality packaging printing.

This contest is open to all package commercial productions and non-packaging applications printed with Cyrel plates or sleeves. The entries submission deadline for the Middle East is on the 28<sup>th</sup> of February. A jury of recognized flexographic printing experts, known for their deep technical knowledge of the packaging market, will acknowledge the 'best in class' printed packages in terms of outstanding performances for design, reproduction, print quality, conversion from offset or gravure to flexography.

The winners will be selected by category in March 2010 and honored during the Gala Ceremony to be held in April-June 2010.
